Just in case you haven't heard, there's a new Fast & Furious movie. Can you guess what it's called? That's right, Fast & Furious. This could quite possibly be the lamest title in my opinion but this movie looks awesome to me. What do you all think of this upcoming movie?

Yeah cos there was a lot of homosexual intercourse in those movies

I liked them. Although, when I saw them I was in a real "FUCKYEAH STREETRACING GAMES" phase. I'll go to see this one.

Yeah, I love these movies...I am a Need For Speed fanatic as well (on PS)...so these F&F movies are always cool to me.

I liked the first one a lot. Saw it from the front row in the movie theater and that was like "wow cars coming at me!) .

Didn't really like the others. Same thing done over again...

I actually think this one is going to be pretty good. The fact that it is the original cast is what does it. If it was a bunch of nobodys like Tokyo Drift it would fail like goztows moderating .

these stories in these movies are fucking shit which is pretty obvious but i like cars so i enjoy

watching the racing and when dey be buildin shit

on a side note, my inner kunta kintei tells me to buy a 1964 impala every day and to skip paying my bills

I thought the movie was pretty good. Tbh I think I like it better than the first one. They also put a lot of effort into making in not so my-civic-has-17-gears-and-does-260mps-at-11000rpm-zomfg cheesy.

No it doesn't - they even reference the third one in it.

The third one was very good I thought though it did sound a bit cheesy and unrealistic at times.

I hope they bring in some exotics in the next one...would love to see Lambos, Ferrari's, Merc SLR's in an European setting. Movie would kick ass imo...

Oh yeah the AMG Black series is awesome! Those cars are sick looking when modded plus more

status to the driver due to Merc badge...

I really wish they would make a euro-themed movie but I dunno if it will do so well in the US...

They could atleast use kits to save costs.
