Alot of people asked me if I was going to release the Nod Airstrip which I showed before. I answered NO all the time.

But now I see no reason why I should keep it for myself! Why would I make people jealous by showing video's without releasing it? It just doesn't make any sense

Most of the people will agree with me here I think

Well, enough talking for now. If you haven't seen my Airstrip modification you might want to check it out here :

If you like it please comment!

Download it off my website in the NOD download section

Nice to see you released this. I'm sorry but I just don't get the point of keeping things private. You're like "Yeah I have it and you don't." We either say "Well can we have it?" or "So what?" Either way it makes you look like a fool, but releasing things like this makes you a hero. So release more.

I use this now, it's nice.

You think the same as I do I keep releasing my stuff. Only not everything at once, otherwise people would get confused with what they have and what they don't
