Subject: Anyone else ever encountered this?

I was bored and seeing how my skin was going so far when i encountered this and said hell see if its common.

dont remark about the gun like i said i was bored and seeing how the mod was so far it's how i do mods dont judge me

Anyone else seen it?
Mendoza and if it can be seen (my comp moniter sucks ass) a soldier in the hand of nod stuck in the window sakura does it all the time so im wondering if this is common (im seemingly redundent)

Zeratul wrote on Thu, 30 April 2009 07:27i was pretty sure it was normal... I knoticed it too, it happens when you run around base just shooting the ai.....then they start following you, and then they go up there and gangbang themselves. btw that gun skin sucks, most people use 3rd person anyway.
