I went away and an alien came to my room and time traveled my PC back to stone age and a dinosaur hacked renegade and caused a time paradox that will make humans extincted by cybersaurus.

Can Any One Help How can I save Humans From ROBOT DINOsaurs?

Wow, my goldfish got me banned from some servers yesterday as well.

I doubt you'll be unbanned, and posting here will simply cause people to go lookup your IP address for nicknames. Sorry, but if it's your computer, than it's your responsibility to ensure that it is used responsibly. If your little brother did genuinely cheat, than try telling your parents.

Have a nice day.

For server owners, his IP is available if you PM me, I don't know if I should post it here.

Noone can and will help you. It's your computer, so your responsibility.

This is like the dumbest post I've ever seen nor heard of HAHA.

That's like every cheaters excuse is that their little bro or sis did it...

AND LMFAO at the guy who said their goldfish got them banned (sarcastically of course)

The thing is, I actually have a twin brother, but I've made it clear he isn't to go cheating...

You know what is sad? His flag says he is American - which means his spelling/grammar is really just that bad.
