Well actually its no big deal its just really annoying so the MCT screen doesnt appear in the refinery its just a blank spot that is seen until the wall and i find it annoying that i have all the files it just refuses to work. it does this weather its modded or unmodded.

Due to the fact that it did not do this on every renegade ive ever owned im wondering if its the CD or something else.

I guess ill pay attention to it i download almost every map ever made so itle give me something to do lol besides my modding  
i have too much time on my hands...
