Is it possible to change the size and font type of the playerlist in right top corner of Renegade?
The one which changes when pressing 'Tab':

There doesn't seem to be anything in 'stylemgr.ini' changing it. Is it thus possible to actually change them? I remember that the RR mod made some changes with this playerlist, but not size related.

Thanks in advance.

If you're not going to help, but rather just show it's possible and that you know how, what's the point of posting at all?
