Very nice as usual

Could you maybe post a tutorial on how to do this? I made a post in mod forum section couple of days back about pretty much this exact thing.

ErroR wrote on Wed, 10 June 2009 06:40didn't it already have it or only rxd canyon?

every map is already done for rxd but I have to remake all of them because it uses new presets and will not work for normal ren.

I made this tut a while ago <http://www.renhelp.net/index.php?mod=Tutorials&action=view&id=141>

Looks nice as usual. But is there anyway that we can change the color of the tib gas?

yes caxtuses they own your face if you touch them. Any skin themes that you would like to see for canyon or city flying.

That fallout theme for City_Fly that ErroR [I think] did was pretty cool. Maybe somehow make that into one of the other maps? Or some sort of theme like it. Broken down city of some sort.

Being more original, ehh could try a tropical sort of them for canyon.

The lamp-posts take away from the dead theme of it all

And yes. It's MY skin... Don't start this shit again... *facepalm*

EDIT: I think it would be awesome if you'd make dust emitters for City, and if you had a version just for my skin I think it would be so awesome
Like, medium fog overlay weather, mid-day kinda time, with dust blowing about. That would be...
go-o-o-oooodly

I was going to add on to your skin and make a few other skins.

LeeumDee wrote on Thu, 11 June 2009 13:59you could have some lamp posts burnt out and others flickering.....

good idea

Quote:any problems with the doors in city_flying?

Think I fixed the doors

i added some emitters.
and added some bushes to the base, and change it from night to day.

I didnt say that i made the textures for the buildings at the map.
But i was to lazy to remove them from my Data for the ss. so the city textures are not at my city.mix, u know?
