The textures are a bit too dark for my taste but good job.
I think the War Factory is the best interior, it has the best textures and pretty cool features like the Engineer's room.

Definitely the best yet I prefer the more serious type ones, (although I can appreciate the work gone in to all of them) I actually will be using this one

Just wondering if you have fixed the minor glitch with it or not? So i can redownload? Love it btw, and yes, the more serious ones are best imo too.

Go in obi, turn left corner n fall through floor btw...i guess no1 else has run into problem, can some1 else test it to see if it happens for them too please? It does it on almost all maps, some it works fine with tho.
