It is possible in 3ds max? I have tried alot of stuff but all tutorials of alpha blending are for renx and the vertex paint thing in 3ds max is much different.

I was about 90% done with making the C&C City.max and this problem came out.

For single Textures, like fences, lamps etc you need to change

Blend Mode to Alpha Blend. (On Shaders Tab). About the Vertex paint, i also cant get it work in 3DS MAX. i really need it for my Campaign.

The VertexPaint panel is a vertical toolbar on the right side of the interface. It contains various icons for painting and editing, including a 'Display Channel' dropdown set to '3', 'Opacity' and 'Size' sliders, and a 'Mode' dropdown set to 'Add'. The 'Mode' dropdown is highlighted with a red circle.
