yeah i think noone uses it that often
but there exists no good released model for the gren
so i decided to make my own

there is deathlink6.0's cheese thrower   but the grenade launcher is an awesome weapon especially if you manage to hit the body

It looks very nice. Keep working on it and I might actually use the grenade launcher ingame :0
(instead of these fishes)

Random: They were actually going to make upgrades for a few weapons (Mostly explosives it seems). Grenade launcher was going to get napalm upgrade and Tiberium upgrade.
