My renegade works fine and all that but it's been annoying me a little

Everytime when I go to the Server List this is what I get

The players down is always by default and not the hosts up

How can I change this? It's not really a big problem to me but I just hate it.

I don't believe you can change the default without recompiling scripts yourself. But come on, it's just two extra clicks.

Scripts 3.1.4 is also a stable version and doesn't do this. It's the reason why I still use 3.1.4!
