Well, Currently, I have two Renegade Servers, Bot Wars (Up to 330 Bots! Built on a heavily modded "Drop" Mod, As some call it)

And, I have a slightly modded All Out War.

And, As for the other games.
I mostly have just clans.

Haha, Well, I haven't seen a marquee HTML Code either in a LONG time, So, I thought I might as well do something old school!

And, I am using e107 for the site, So I will probably change that theme.
