Hey people I just want to help just incase the base is getting bombarded so you can find me behind the weapons factory/airstrip
or the tiberium refinery but it depends on what map i'm in.
So if i'm GDI i give med tanks but nod light tank.
Rules of my thing
Wait till I get a minimum of 4 tanks
Take one but bring it back
Repairs are free
If you get it destroyed buy me a new one

I would like to thank shapeshif since he gave me the idea
