Hi I have a server and am running the server version of Renegade Resurrection. I use 2 bots in my channel cloudyserv and a normal irc bot for some extra commands and I was wondering if there is any way I could edit it so that the second bot can say certain things that resurrection puts on the fds so that it aint one bot doing all the work and so that it only shows what i want it to show.

Thanks in advance for any help you can give

~GT41

Hi Mate,

Try having a look at this:
http://www.renegadeforums.com/index.php?t=msg&goto=259752&rid=24536&
srch=mirc+fds#msg_259752

or this: http://www.renegadeforums.com/index.php?t=msg&goto=267067&rid=24536&
srch=mirc_ren.dll#msg_267067

the attachment is linked here:
http://www.renegadeforums.com/index.php?t=getfile&id=3602&rid=24536

Should hopefully be all you need,

(I Personally don't use it, so good luck) ;D

~Cata.

Oh this is not it lol I wanted to know if a normal irc bot could be edited to actually read and say in the chan the stuff I want it to from the fds. like if the fds said [biatch] someone is using big head the cs bot would ignore it and the normal irc bot would see it say that on the fds and relay it to the channel so that both bots are sharing the work lol it might not even be possible   but if it is or even if it aint reply

Use BRenBot and SSGM. Those two between them allow you to relay almost everything to the FDS (SSGM) and then from the FDS to IRC (BRenBot).

Thanks but I have edited cloudyserv to have more in the modlist like 5 or 6 mod levels and the only thing that makes me not like bren is the limited mod levels unless they can be edited to
