Does anyone know if RG will work with the 1.03 Revision 4 unofficial patch for TFD? Will I even be able to play online with it?

Does that patch even change anything for Renegade? I doubt it. Give it a try .

Yeah, it says in the patch notes...

```
# All Westwood Maps Remade With Bots (I havn't tried this yet...)  
# Script Library Version 3.44  
# No DVD Required For Play
```

I went ahead and tried it with RenGuard yesterday and got some error, can't remember what it was. I can play online without RenGuard just fine though.

It might have an issue with the fact that the westwood maps are changed...

It preserves the old maps and creates seperate ones with 'AI' added into the name.
