hey i i got hourglass map in level editor.. and i added loads of troops tht run into tunnels.. and have a war.. and i added mobiuses on gdi team. n medoza bosses on nod.. i got mammoth tht drives round in base.. orcal that does.. and 2 med tanks tht run into nod base.. after about 5 minutes it stops workin and says not responding :S:S im thinking it might be to do with medozas bein bosses? please help....

          thanks
            leo

check your scripts, there might be a bug in one that is set to run 5 mins into the game.

I haven't heard anything about mendoza bosses causing glitches, but I know the raveshaw boss from the single player will crash you if he tries to grab someone.

Is it crashing in game or in level editor?

Did you modify any of the weapons?
