I thought I'd be gone for a long time at the least.

But I'm reinstalling (first time installation on this computer, at least...) Renegade.

I might go back to using Renguard and what not, running it pure.

See you guys on the other side.

Yes, just like I mistakenly installed renegade again.  
It's not fun when your bad...

It's the truth, and fixed.  
Only played one game though, I should probably play another later. I'm just chilling before a test.
