Subject: renguard- not connecting
Posted by mdogg1108 on Tue, 10 Aug 2010 21:42:36 GMT

Ever since i recently reformated my computer i cant connect...

im pretty sure this ISNT a firewall problem and i have a linksys router and UPnP is enabled..

Same problem I had also. Try change your DNS server of your ISP.

Also RG doesnt like internal IPs like 10.xx.xx.xx

Goztow, yes, but this happens when i have IRC closed

Eric, how would i come about doing that

I am getting the same problem, but I have done nothing... I tried re-installing, it does nothing to help the problem... I check, the firewall is off, and both executables are in exceptions and checked...

It still doesnt connect to any servers so I can't even start the game from the renguard executable.

Eric, how would i come about doing that

Network card properties and TCP/IP protocol.
