Would anyone be interested in helping creating a new Coop for Renegade?

I'm also working on APB's Coop at the moment but i would also like
to create something for Renegade again.

I was wondering if there are any leveledit/renx and/or coders available to help out?

This Coop i'm looking to create will be a client download as well
though so people have to download the maps/files in order to play
it online.

Or we can mix it, a few maps by westwood like M01 M02 etc and a
couple of custom ones made by us which would require downloads.

Let me know if you are interested.

Greetz zunnie

If you have MSN, feel free to add me (Cabal8616@hotmail.com) I can do RenX work, as well as
Level Edit work (I've done a ton of my own little mods, just never released them to anyone outside
of a few close friends).

I'd love to help, but I have problems checking a forum and all that, so MSN contact is best if I can
actually talk it up with you and get myself into the mood.

I do hope you have IRC? it is a bit of a requirement, same goes for the forum lol
It's our way of staying in touch

Anyway i added you to my msn..

http://forums.mp-gaming.com/forum-741.html

You can find the new project's info there
We have a few members now who can either code, map or work with the editor

We hope to release a new coop soon

I'm working on the Intro level for MP Coop now.
It's nearly finished, for those who want to come test:
