Majiin Vegeta - Hello !!

Nice to see familiar faces !

I hope the majority of the 'active' community makes this transition with us. If anyone knows someone who hasn't please encourage them, the more the better !

Hey lookie, I can put images in here!
Edit: Maybe I should've made it just a little smaller for the less fortunate smaller resolution ones.
Eh... A few pixels wont matter.

Edit: blah. I didn't see that part.

Guess you missed this part eh?

Currently Images are turned ON. You can also use BBCode (same as UBB code was on the old boards-but more options), including text colors. PLEASE do not abuse the ability to post images. Any images posted should be related to Renegade. For example screenshots of an upcoming mod are okay, but posting a picture of your cat is not

If I knew they'd be used, I might see if I could design an original set of smilies relating to Renegade that would be exclusive to these forums...but it'd be wishful thinking because I'm still a part of the "unnoticed" group.

There is only one way to get noticed is by doing something that people will notice. You should make some, but don't put too much time into it, so you don't feel dissapointed when they are not used, mayby just make 2 or 3 then see if there is a positive reaction.

JarHead :

Sleep easy tonight, the Marines are on duty

Saepius Exertus, Semper Fidelis, Frater Infinitas

"There are only two kinds of people that understand Marines:
Marines and the enemy. Everyone else has a second-hand opinion."

Badass quote. I'm pretty sure 'the enemies' understanding of the Marines uncludes the pharse/words : fear, OMFG etc...And if not --- it should. The Marines r0x your bad-guy socks right off !! All hail the United States Armed Forces !!!
