I just thought back to a little fw I played a few years ago, made me laugh quite a bit.

It was a match on city_flying, dave2916, simp and me were nod, karmai, clear and zell were GDI.

We had no hon, they had only barr left, they had a rather big points lead, and it was about a minute or two left. So we rushed the barr with a LT, stank and apache. We got it down to like 1/10th of a building bar when our shit died.

So Karmai already started laughing his ass off, when I threw 2 remotes on the outside and killed the thing. I don't remember ever laughing so hard at renegade.

Funny ren experiences anyone?

learn to read. 1/10th of a building BAR. Not 1/10th of a whole building.

A moment that stuck in my mind: public games around 6v6 and we decided to light tank rush on

city flying. Game ended pretty quickly.

We wanted the game to end, so I got the entire team of like 25 - 30 to leave all at once to end the match

2v2, enemy team was blocking me out of my base with my apc but they couldn't kill my building without me getting back in.

Was kind of a stalemate until I managed to get two refill boxes and kill their base.

3v3 volcano game against trojan, my team is nod, I think it ends up with something like us having a refinery vs their wf and 2 meds and an apc. all 3 of us rush with engies, and one of the meds goes tunnel side to finish off the ref. The two other meds are guarding the doors... somehow, we all manage to get inside the building and kill it.

I wish I actually remembered more of that story, it was actually pretty awesome.

My most recent funniest moment was a few days ago on Mesa on n00bstories. I was hunting infantry all game with APC/tech and LMFAO...2 PICS reveal themselves to me just as Barr gets killed.

I was madly laughing my ass off as I tapped my Print Scrn key loolloll.

I thought it was pretty funny when in a comm war for RF against Jelly i think, Spooky told our team to save up for orcas. About 3/8 of us saved up for an orca, only to realize it was walls, and not walls_flying. The sad part is that not one of us noticed until we went to go buy one, lol.

I'm not sure I remember that, sounds plausible though.

Winning in the last 2 seconds of the game thanks to a raveshaw destroying a war factory with his last shot (from the outside).

In BunkerTS on st0rm, 3 of us including me after a fourth had destroyed the entire GDI base. Only the Barracks and Ref were left. After shooting him a couple times, I found the cash for a beacon. As the rest of the team were losing to the kill whoring, I planted the beacon on the nod pedestal. We won by base destruction. I found that pretty funny.

Moral: ALWAYS C4 YOUR PEDESTAL

there was a time on walls_flying when a Nod player repeatedly sbh nuked using an afk GDI player as cover
he would search out losabill and find whatever building he was standing in and put the beacon behind him; he killed the wf and the ref this way

meanwhile i was out fending off the arties in the field with a med tank; i only found out about this later because he recorded it
you see the hotwires run right past it several times and never find it

My brother and I were playing Multiplayer Demo (before we had full game). I place nuke on his pedestal, he places ion on my pedestal. I run to my base and see the Ion Cannon firing. I'm screaming "NO! NO! NO!" he is going "YES! YES! YES!" Suddenly, exactly 1 SECOND before the Ion hits, THE NUKE HITS. I'm screaming 'KANE LIVES, PEACE THROUGH POWER AND REJOICE CHILDREN OF NOD!' My brother runs to his room and shoots me with a Nerf Gun. I shoot him back. We start having a Nerf war because of an Epic Win. Rejoice brothers of Nod.
