We here at Tiberian Technologies are thinking about producing a set of fixed maps and want to collect from the community any map bugs that should be fixed. Things like VIS glitches, bad spawn points and anything else that's a genuine bug.

Don't report things that are already fixed as a result of code changes in 4.0.

CP1 is the first unofficial C&C Renegade update which fixes several bugs identified in the game. Many fixes and changes were made to the original maps including additional sounds, more effective vehicle blockers to prevent wall jumping, and other special effects. The much hated ability to do base to base attacks on certain maps has been prevented. Multiplayer radio command icons are now available, Obelisk powerup will be audible, seamless interaction between the Renegade client and the Free Dedicated Server will introduce server-side enhancements that make available the best effects ever achieved in Renegade multiplayer gameplay.

CP2:

Map changes/fixes:

- Blocked ability for players to get on top of refinery on non-flying maps
- C&C_Canyon.mix: Blocked ability for players to get on top of the Weapons Factory
- C&C_Complex.mix: Prevent GDI Base-to-Base exploit to hit refinery
- C&C_FieldTS.mix: Prevent Nod buggies from entering tunnels
- C&C_FieldTS.mix: Fixed problem near obelisk where vehicles can get stuck
- C&C_Islands.mix: Added blockers to prevent more Base-to-Base exploits
- C&C_Snow.mix: Fixed a Base-to-Base exploit
- C&C_Under.mix: Fixed a bad spawn point in the Hand of Nod

[View Forum Message](#) <> [Reply to Message](#)

Here's what I fixed in my map fixes pack that'll have to re-do because I had some issues.

Walls_Flying

Fixes:

- Added kill zones for ground vehicles on both sides' walls, and a big ass one on top of the mesa
 - Added beaconing prevention zone on top of both teams' Refineries
 - Add a ground vehicle kill zone to the Barracks outer doors
 - Added B2B prevention to prevent shooting the Hand of Nod with Rocket Launchers from GDI wall
- TODO

City_Flying

Fixes:

- Added spawn points to the Barracks (by Zunnie)
 - Fixed a misplaced PT inside the AGT
 - Added beaconing prevention zones on top of both teams' Refineries.
 - Resized the Airstrip kill zone so the Harvester doesn't get killed by it sometimes
- TODO
- Add a ground vehicle kill zone to the Barracks outer doors

Under

Fixes:

- Added kill zones on top of Refinery (from CP2/by reborn)
 - Fixed a broken spawn in the Hand of Nod (from CP2/by reborn)
 - Added vehicle kill zone to an infantry only area that can be glitched into with vehicles
 - Added a vehicle kill zone with a 20 seconds timer in a place where vehicles sometimes get stuck while falling off hill
 - Added kill zone on top of Barracks
 - Added kill zones inside buildings to prevent vehicles getting inside them
 - Resized the Airstrip kill zone so the Harvester doesn't get destroyed by it sometimes
- TODO
- Added kill zones on top of both teams' Powerplant

Field

Fixes:

- Added kill zones on top of Refinery (from CP2/by reborn)
 - Fixed a broken spawn in the Hand of Nod (from CP2/by reborn)
 - Added a kill zone on top of the Barracks
 - Added beaconing prevention script zones to the tunnel
 - Resized the Airstrip kill zone to prevent issues with the Harvester sometimes getting killed by it
- TODO

- Added ground vehicle kill zones inside buildings that can be driven into with Humvee and Buggy
- Prevented a B2B spot with MRLS (from CP2/by reborn)

Canyon

Fixes:

- Blocked ability for players to get on top of the Weapons Factory (from CP2/by reborn)
- Added kill zone to prevent 2-man wall hop from the balcony into Refinery for both teams
- Added kill zones to two places that could be reached with Humvee and Buggy
- Added kill zone to a place at the Nod Refinery tunnel that can be 2-man hopped off the wall
- Added a beaconing prevention zone to tunnel under the Nod Airstrip
- Added ground vehicle kill zones inside buildings that can be driven into with Humvee and Buggy
- Added kill zone to an area in between the Tiberium field in the middle and the end of the Strip that could be used to get off map
- Added kill zones on top of the crates/containers inside of both bases to prevent players from getting on top of them

Volcano

Fixes:

- Added a kill zone on top of Barracks
 - Added kill zones to both teams' Powerplant
 - Added kill zones to both teams' Refinery (from CP2/by Reborn)
 - Added kill zones inside buildings to prevent vehicle getting inside them
 - Resized the Airstrip kill zone to prevent issues with the Harvester sometimes getting killed by it
- TODO

Hourglass

Fixes:

- Added a kill zone on top of Barracks
- Added kill zones to both teams' Powerplant
- Added kill zones inside buildings to prevent vehicle getting inside them
- Added kill zones to both teams' Refinery (from CP2/by Reborn)

Here's some new issues:

1. You can get off the map on Glacier_Flying.
 2. You can one man wall hop into the GDI Refinery on Field.
 3. You can jump a vehicle over the Nod barrier (next to the Nod bunker) into the infantry only area next to both teams' Refineries on Mesa.
-

[View Forum Message](#) <> [Reply to Message](#)

Is this about issues like when you stand in the corner of the WF on city flying you can see through the walls and the same issue with the barracks on complex.

The city flying one isnt really that too important imo but the complex one allows for sbh to see whats going on inside when they shouldnt.

Subject: Re: Collecting map issues for a possible set of fixed maps

Posted by [Starbuzz](#) on Tue, 25 Oct 2011 15:05:16 GMT

[View Forum Message](#) <> [Reply to Message](#)

Something new; as we all know many of the stock maps have a problem where if we stand in specific spots, the wall and sections of the walls will not "render" making us see thru to the other side.

Usually it is never a problem but atleast in one case, it directly hinders gameplay causing doubt/accusation. I refer to this topic I created long time ago on Jelly regarding Canyon. Can you please fix that spot only atleast on Canyon?

<http://jelly-server.com/forums/index.php?/topic/13401-ss-clarification-to-ircwho> re/

ty!

[View Forum Message](#) <> [Reply to Message](#)

Here are some bad vis spots I noticed on city flying yesterday:

BadVis 1

GoodVis 1

Position 1

BadVis 2

GoodVis 2

Location 2

BadVis 3

GoodVis 3

Location 3

And On Canyon:

Nod can Base to base

Nod can also get up here (alt view) that either needs to be blocked or the bad vis should be fixed.

Ghosting:

Also, I'm starting to think I am actually seeing ghosting more than I used to, I wouldn't mind this but it does allow you to damage the thing ghosting once before it snaps back to its correct position.

[View Forum Message](#) <> [Reply to Message](#)

I found the issue that was causing the ghosts, but sadly it won't be in time for the beta2 release (which is due in 12h or so). Also, it's off topic here, since it's not a map-related issue. Please create a new thread for any replies, and/or a moderator split this to a separate thread.

[View Forum Message](#) <> [Reply to Message](#)

while we're on the subject of fixing things how about you turn the agt around on field why is the front door facing the field? they couldn't have picked a worse direction for it to be facing
people shoot into it from the field and walk right into it behind the harvester almost effortlessly; it has always pissed me off

with 4.0 i was told walls and structures and whatnot will absorb splash damage, so that's good for GDI in that scenario

Subject: Re: Collecting map issues for a possible set of fixed maps

Posted by [StealthEye](#) on Wed, 26 Oct 2011 17:26:06 GMT

[View Forum Message](#) <> [Reply to Message](#)

In both stock and TT, walls absorb 75% of the damage. TT does not aim to make changes like that, we only want to fix bugs. Someone can still make a custom map with the door in a different place though.

I have a question about some of the work you plan on doing with the maps.

Due to the fact that more maps have the potential to see there way into the server (I hope this is the case, but I won't be surprised if it's not), have you guys thought about making some minor fixes to the fan maps down the road if they become increasingly popular?

I mean, the new scripts and all your work is awesome, but theoretically, would you AND could you release future updates if some of the fan maps become more main stream?

Subject: Re: Collecting map issues for a possible set of fixed maps

Posted by [StealthEye](#) on Thu, 27 Oct 2011 00:17:57 GMT

[View Forum Message](#) <> [Reply to Message](#)

We only focus on stock maps, but I think others are also able to make such changes. Others have also made the fan maps.

[View Forum Message](#) <> [Reply to Message](#)

i'm sorry if this has been covered 300+ times but what about the deadzones on the airstrip in regards to beacons

my team just won a game of canyon because the GDI ion beacon didn't kill the strip (it was placed dead center on the runway)

is that a map issue or something else?

also the deadzones in the GDI logos on vehicles

Subject: Re: Collecting map issues for a possible set of fixed maps

Posted by [StealthEye](#) on Thu, 27 Oct 2011 13:19:35 GMT

[View Forum Message](#) <> [Reply to Message](#)

I have added the air strip thing to the bug tracker. I don't think it is a map issue, but I'm not sure why it occurs.

The logos on vehicles are already on the bug list.

I know about the issue with the Airstrip but it also affects other maps. If someone could give me the exact spot(s) it happens on I'll try to compare it with a modified Ion Cannon Beacon that does a lot more damage. I don't think it's map specific.

So yeah, anyone got specific spots where an Ion Cannon Beacon will damage an Airstrip on Canyon but not destroy it? I've been able to reproduce it on stock LAN and the stock FDS but not on 4.0 LAN. But even slightly positioning the beacon differently affects the amount of damage it does greatly and the beacon destroys the Airstrip most of the time.

[View Forum Message](#) <> [Reply to Message](#)

Sometimes when you place an Ion Cannon Beacon on the Airstrip it doesn't destroy it. It happens on the end of the Airstrip on Canyon a lot. I was wondering if there's anyone who knows a position that causes the beacon to do 80% damage, as only slight changes in where you lay it affect the amount of damage done greatly.

That bottom pic your vehicle camera is actually going through the bottom of the bridge (makes me sad that ren's vehicle cameras don't seem to be constrained by meshes that fall below the vehicle camera's height, maybe TT team could fix that?).

Beings the camera is up inside the bridge, I'd assume it's either outside of a vis zone, or is actually up inside the vis zone for objects that are on top of the bridge.

would i be possible to keep some standard maps cause iranians map fixes contain many kill zones i rather dont have on my server due to certain features allow that kind of stuff

mainly the veh kill zones on wall flying

Yeah, it would be a shame if we won't be able to do any of this anymore:

i actually made it more like this :

a vtach example

the vid sucks i just downloaded somethin in the morning to make this quick

if i didnt fly high enough over the wall the buggy would have exploded there

You can just use the old maps on the server and add the appropriate hashes to anticheat.ini. Since the kill zones are handled on the server, you should not need the clients to download anything.
