Why are sniper servers so terrible? All the players are bad and casually abusing cheats. this cool tmx server lags like fuck and the mods are a bunch of abusing fags (they have t3mp0zia on their mod team lol). sad thing is that i still get mvp every time even though that server is lagging worse than jelly marathon. i get 50 ping on it lol.

also pretty cool how no sniper server is 4.0 yet.

Let's fix a few issues:

t3mp0zia was banned about a 2 years a go as I asked him for a screenshot and he had GDI and Nod dots on his radar, I lol'd.

Edit: It seems he is on the mod team. just shows how out of touch I really am. I'll get it looked into.

I welcome you to create a thread on the forums regarding any abuse from a moderator and it'll be dealt with accordingly. It's true that some of the newer moderators are complete retards, but oh well, they'll learn the right way or get removed.

iRANian wrote on Wed, 28 September 2011 14:33loki plays on tmx, pretty cool. blatantly aimbotting my head off rofl

Excuse me? I placed a never ending ban on his entire ISP. Unless he's moved city/ISP there's no way that he can join TmX. Give me a date/time when he was ingame and I'll get his new ISP range completely banned as well as he is not permitted to join TmX.

iRANian wrote on Wed, 28 September 2011 14:33also that place used to have azazel as head administrator and basically changed the core of TmX by adding in a load of good initiatives. Although he stepped down as he couldn't be arsed with sniping in general anymore and was caught cheating while he was a tempmod.

I wish TmX would be 4.0 as well, but ReLoaDeD simply hasn't got the time to modify stuff at this present time.

1337 was a pretty great server too, I was all for the RR. It's a shame the community ripped itself apart from the inside and the owner couldn't be arsed anymore.

it was some guy with the nick Budgie blatantly aimbotting my head after a while. he'd be trying to body shoot me a bit and then just go FUCK IT and auto hs me. He got around 80 head shots on me and around 5 body kills, pretty cool..there was also this J30X guy who almost always got two headshots in a row, he also couldnt hit shit lol. cant be arsed to paste all of it because he was doing it the whole time but heres my client chatlog from yesterday.

edit: also that crimesnip guy playing yesterday used big head on jelly marathon a few days ago and got banned for it, he was banned for big head there a year or so ago too. that Patti guy was accusing me of cheating the whole time and WNxBerry is a known cheater.

oh and loki and his friends have been evading on jelly the last week or so

Yea the rr bighead detection didn't work too well. You would have to shoot someone several times before it picked it up. Biatches big head detection worked well.

Wasn't there a spectate detection including in OnOeS too? It could be worth porting too, incase things get bypassed in 4.0.

I rarely have any issues on TMX as I have a 50 ping. Up to 8 players and its fine, any more and it starts to lag/warp.

I'm banned from DA because sum kid named Gohax thought I was getting too many kills and forced me to use Ren Ressurrection, which is no longer possible with 4.0 installed. Nothing personal dude, just had to put it out there though

I miss the old EKT server I liked being able to use Rav's & PICS's.

Hm, in all honesty, I wasn't the sole decision behind forcing you to use RR. Why weren't you using RR anyway? Being forced to use it by the one server you play most, I wouldn't see a reason why. And, it stops you from using RGH. Instead of getting RR and coming back to play at =DA=, you went to TmX, where you can't tell if you're using RR or not, and were good there? Hm.

And, in all honesty, after you started using 4.0, you hardly ever snipe anymore. And the 1-2 times I have sniped with you, you were nowhere near as good as you used to be. Of course, that's how I noticed it.

On a sidenote, I didn't think you were getting too many kills. People were complaining about you to me, and I saw that you weren't using RR and some of the other mods agreed to forcerr you. If it's any consolation, I thought you were "okay before 4.0" but you weren't an amazing sniper, tbh :/ 4.0 coming out made me think differently of you, though lol..

Lol dude I don't hax, you just paranoid. I never came back that day cuz I got .net error I couldnt start ren up after. Fixed it a couple weeks later cuz several others kept insisting I install it. I never used RR before as I never needed it, must say it fixed a few things and I kinda liked it.

I've been running 4.0 for weeks and I play TMX quiet regularly still getting a few MVP streaks. Yes there are times I may not be as good as people expect me to be, I am human and I have bad days ie; sleep deprivation or stress. But pinning that on 4.0 pisses me off tbh.

If you look me up, I've only ever used 2 primary nicks, "kannies" & "SilverDwn". You will not find anything implying i've ever cheated, infact i've never installed anything dodgy on my machine apart from a partial clear scope (removing the green). I'm 27 years old and I would hate to ruin a game i've loved for years by installing a hack. I dont have anything to prove.

BTW my brother is orca234. Here is one of his vids, we play in a similar style, infact I was the one that taught him to free aim.

[u]<http://www.youtube.com/watch?v=Enkrfm-5nUY>[/u]

I guess I should make a video to clear my name, i'll get orca to help me with it.

Sigh the trouble we go through just for being better than the common people.

Dunno what your chatting about tbh, he pwns in that vid in my view.

Terrible aim compared to what? Your aim? I know you're one of the better players so I understand you will look down on any inferior gameplay.

Lets see your vid then....I've started frapping for mine.

I miss the old EKT server I liked being able to use Ravs & PICS's.

Hm, in all honesty, I wasn't the sole decision behind forcing you to use RR. Why weren't you using

RR anyway? Being forced to use it by the one server you play most, I wouldn't see a reason why. And, it stops you from using RGH. Instead of getting RR and coming back to play at =DA=, you went to TmX, where you can't tell if you're using RR or not, and were good there? Hm.

And, in all honesty, after you started using 4.0, you hardly ever snipe anymore. And the 1-2 times I have sniped with you, you were nowhere near as good as you used to be. Of course, that's how I noticed it.

On a sidenote, I didn't think you were getting too many kills. People were complaining about you to me, and I saw that you weren't using RR and some of the other mods agreed to forcerr you. If it's any consolation, I thought you were "okay before 4.0" but you weren't an amazing sniper, tbh :/ 4.0 coming out made me think differently of you, though lol..

This reminds me so much of n00bstories. !forcerg despite running 3.44 - RR is now obsolete too, so why do you even use the !forcerr command? Jus get someone to upgrade it and use !forceTT instead of !forcerr.

This was before TT came out, a couple of months (if not longer) before that. 3.4 has been obsolete for even longer, the only thing that was good enough was running RR server and client-side.

@Silver, I didn't directly say you cheated. Shit, I've been forcerr'd, forced to use 3.4 and I don't cheat. You can ask Azazel .

Anyway, I'll be looking forward to that video. Just don't do what NLSRene did and make yourself look insanely good by getting a jet and spawn-trapping noobs in their spawn lol..

Yeah, you used to love pissing me off by installing scripts 2.3 after it took me about an hour to

convince you to get 3.4 :/ Other's thought you cheated and it was either force you to get 3.4, or waste time spectating a player that I knew didn't cheat. You never knew that did you.

I knew of people thinking I cheated, I knew many were watching me. Didn't know I was constantly getting spectated though, lol.

And I didn't diliberatly not run 3.4 back then just to piss people off. For some odd reason, it would fuck up Ren, fps drops, lag, so I never installed it. Stayed with 2.+ and just used 3.4 whenever I did my little 1v1 vs you ^^

I find it ironic how I find myself defending my integrity against 3 trolls.

The first has managed to accumulate more than 1000 posts over the summer, most of them useless one liners (nice vid, seen it before though).

The 2nd, (the accuser) has the word "hax" in his name!

Gohax wrote on Tue, 11 October 2011 07:49

@Silver, I didn't directly say you cheated.

You didn't directly accuse me, you encouraged the spreading of rumours by using subtle but vicious attacks like this.

And you usually cry in public chat when in game and use these same attacks.

Also I was never forced to use 3.4.4, I chose to use it, mainly to get round the Jelly marathon Veichle limit . I was running 3.4.4 the day you banned me. I lol'd when I saw you have a @ on some of the IRC servers.

The 3rd guy who the accuser refers to:

You can ask Azazel .

Though I don't directly know you, I know of you and what people say of you and frankly you have a bad reputation!

Never argue with a Troll, they will bring you down to their level and beat you with experience!

I will stand down now.

Excuse me? Re-read my post, I clearly stated that using forcerr on you is wrong, because of the fact that 4.0 is out. Little did I realise that the forcerr was placed before 4.0 came out so meh.

What kind of sniping video is that? You're sniping against the same 5 guys or so who are just terrible, getting lots of lag and walk in straight lines and you record yourself getting outsniped by hitman on your team. thats terrible lol. also most of my posts are in the private tt patch testers forum. not sure where i'm "trolling". also like the rest of your fag clan mates you're hugging in your video.

3 trolls? I'm just stating the obvious.

Also, accuser? I haven't accused you of cheating, as frankly I don't think you're really that good at all. Do you not understand the fact (and I've said it twice already) that people were complaining about you in the game. I saw that you weren't running RR, and forcerr'd you. I even think I asked you to get it before then. And, even you should know, that 3.4 doesn't mean shit.. I was just doing my job as a moderator, don't think too highly of yourself..

I never accuse anyone of cheating lol. What, I have my saying "if you're not using 4.0, you're cheating"? I haven't encouraged anything, I don't even talk about you outside of this topic. Because I posted something based on my observations since 4.0 came out, you automatically presume I'm just saying you're a cheater. I only put what I had together:

- the fact that you didn't use RR.
- the fact that whenever 4.0 came out, you didn't seem as good as you were before 4.0
- the fact that whenever 4.0 came out, you weren't in sniper servers near as much as before 4.0

They were all observations that I noticed after 4.0. It could all just be coincidence.

As for your video, you do have some nice kills in it. For that, I say good job. But, I look at the people you're playing against and quite honestly, most of them aren't very good.
