GDI CnC Minnigunner Preset (Dialog Bug)

While importing the standard presets to Leveledit I saw, that the GDI CnC Minnigunner Preset has a bug: there are a bunch of Dialogs on it.

No other CnC Soldier preset has this.

So my question is: is it really necessary to temp a new preset, change the team purchase settings and all startup spawners to the new one?

or is this fixed serverside?

If so, needs the preset the remain with this name?
