After joining a 4.0 server, sometimes the "Unit ready" sound and text will be spammed 3-5 times in a row. It'll also do the "X_BUILDING destroyed" for every building that has been destroyed before you joined.

Quote: It'll also do the "X_BUILDING destroyed" for every building that has been destroyed before you joined.

This already happened pre-TT as well, sometimes and for some buildings.

Most likely the harvester destroyed when its created. (disable refineries). doesn't stop the building controller spawner.

It happens on stock AOW maps.

I've added it to the todo list.

Also "harvester under attack" is always played twice, making it sound like "Harharvavaststerer... etc".

And it happens on any level.

Can anyone tell me reproduction steps for these 2 issues?

"Harvester under attack" being played twice you just need to play on a non-4.0 server and have that message appear (by attacking the Harvester) and for the other issue you need to join a 4.0 server (maybe with players in it) after there are some tanks out there and after a few buildings have been destroyed.
