Yes there is a crates plugin already in SSGM but it lacks certain crates that many have seen in servers before. Some include the Kamikaze, God, Money Multiplier, Blown Fuse, Big Boom and more. I also edited the timer for the crate to spawn 1 minute after it's last pickup. In time, I plan on adding additional settings and also changing the PPAGE stuff to color messages so iRan can be happy

NOTE: I took out the gay Uber Wire Crate and replaced the Tiberium Death crate with a Tiberium Shield crate. There's too much death crap as it is.

CREDITS

Thanks to Black-Cell's original concept and idea for a lot of the crates.

DESCRIPTION

This plugin will allow you to replace those yellow boxes ingame with special crates. I added sounds to certain crate events so it won't be so plain and also extended information for the _CRATE SSGM header.

CHANGELOG

V1 - Release

Installation

Place this in the ssgm.ini plugins list of course. Below is what should be in your SSGM.ini for the crate settings.

[Crates]

```
; -----
; ----- Crate Related Settings
; -----
; -----
; NOTE: crates.dll plugin required
```

```
; EnableCrates=  
;  
; Decides if there will be ANY crates, both old and new, on the map.
```

EnableCrates=1

```
; EnableNewCrates=  
;  
; Decides if there will be new crates, if this is set to 0 and EnableAllCrates is set to 1, normal/old  
crates will spawn.  
; New Crates turn those little yellow boxes into a lottery-based system that can help turn the tide  
of any game,  
; and can lead to some pretty fun times.  
; Crate log messages will use the "_CRATE" header.
```

EnableNewCrates=1

```
; AllowVehCrates=  
;  
; If set to 1, vehicles will be allowed to pick up crates. If new crates are disabled, this will always  
be set to 1.
```

AllowVehCrates=0

```
; Crate percent configuration.  
;  
; Controls crate percentages for all maps.  
; If you want to disable a specific crate, set it to 0 or leave it blank. Make sure the total sum is  
100, or SSGM  
; will use its defaults.
```

Weapon=9
Money=9
Points=9
Vehicle=7
MoneyMultiply=4
BlownFuse=4
BigBoom=4
Death=2
Tiberium=2
Ammo=5
Armor=5
Health=5

You might want to look at the crates here:

<http://spencerelliott.co.uk/downloads/BetaCratesPluginWin321.0.zip>

Some additional crates:

CrateMoneyMultiplier=2
CrateSpeedySolider=2
CrateBasePower=2
CrateTiberianShield=3
CrateSecondWind=3
CrateKamikaze=3
CrateRubberVest=2
CrateMutantHiJacker=1
CrateIonStorm=2
CrateHealingAura=3
CrateEMPGun=1
CrateDisArmProxy=2
CrateHealthGen=2

CrateTeamHeal=2

Apparently I forgot to include the .dll file with this download. I uploaded it and updated my first post.
