The owner of TmX banned you from the forums, not I. You had it coming with the amount of trolling you was doing.

Considering our server is a joke, we peaked at 17 players today and unfortunately we're the only sniper server left that gets regular activity. I'd welcome some healthy competition and I hope osborne gets his 1337 server back up sooner rather than later.

Mikey unfortunately posted internal logs, most of which got removed from that thread. He crossed

the line when he started doing that. Plus he makes us look bad when he kicks and mutes liquidv2 and Anthrax for no reason.

He was asked internally to chill out and he's decided to take a break which I fully support.

No, what is "lol" is the outcome of a certain poll. It's only a small amount of the players' input, but shows how outdated you and your shit is. Your mod got beat by a cobbled together server. Toggle SpoilerGo with Xpert and server modification that involves the use of CloudyServ, and a

veteran system that allows you to rank up to gain access to commands like !weap (random weapon), !char (random char), !tank (random tank) and others. Nothing purchaseable (2 votes [8.00%])

Go with BRenBot and work with what we have (unfinished project as a result of going with Xpert and pretty much leaving out reborn) and work build it up to what the community wants with the use of other coders, IE BillieJoel & WD (Purchasable Stuff) (20 votes [80.00%])

What, I cannot laugh at you here? I get "the beatings" because I find it funny to pass my time with. It's so easy to make you people go into a rage over stuff.

P.S. Your mod sucks.

P.P.S Stop trying to get onto our FTP account. Yesterday 1:36pm.

My Windows Explorer was still idle on the last page of the FTP. I don't close my windows explorers unless I have to restart my PC. You can relax. I won't try to expose your porn to the public.

You don't find it funny. Last time I checked, you were the one who rages on these forums thinking you can win at a debate but get so angry and frustrated when people call you out. lol. Now you want to ride my dick in a topic that has no relation to anything you're bashing about. Man...

Nurple wrote on Sat, 15 September 2012 21:08 he might have to his servers been empty for months now

And? I'm not complaining lol. 300 players left in Renegade. For your information, I've been playing in Jelly for the last 7 months. I don't like to play in a server where you can magically spawn a Medium Tank or Sniper Rifle at will on command making the vehicle and soldier factories useless.

The more u give Queers like Iran and MDK attention the more they get a boner. Just a tip, put them on ignore and u dont have to deal with their retarded brains i.e. the *ideas* comming out of them. I guess you don't believe in second chances, even though we gave you one by allowing you back

with 4.0.

I helped with a lot of things internally and continue to do so, I didn't even want to moderate there again, but the owner believes in second chances. I'm very pleased we have 4.0 running on our server, we have a new and improved bot, all of our plugins have been re-written and our memory leaks have been fixed. The playerbase are very happy with the new and improved server that we beta tested internally for many months.

Blacky's done a great job with everything, even though he breaks the server when he comes up with a new idea lol, that's what beta testing is for I guess.

Regarding mokojinn hugging, that was resolved internally a while ago and he hasn't done that shit again since. Any moderators caught breaking the rules will be subject to punishment.

Fairness is very important to me and I made sure I addressed this internally. The thread wont vanish as it was a genuine complaint and got dealt with as such. Just because we don't post about it in public, does not mean it was not dealt with.

I don't blame the other moderators for not being amicable with you, you have a long history of hugging and badmouthing the server which is why they said what they did.

You was only banned from the forums for the all the trolling you was doing, you are not banned ingame and you wont be as long as you follow the rules.

such a useful anticheat function, shame 4.0 made it (relatively) useless

Edit: LOL at MDK's post, "written out of hate," I have never spoken to Mikey in my entire rene-life, I can just plainly see he's a fucking retard from his posts on TmX + he was fucking raped on Jelly with SBH emitters. That's all I have to say about that.

I wondered why he never wanted to run 4.0. I guess I know for sure now... The likes of sbh reveal wouldn't really make much difference in a sniper server though which is why the owner didn't act upon this. It's now mandatory for every moderator to run 4.0 at TmX.

Exactly these three files will appear in !cheat results if you have standard SBH and beacon emitters from Good-one-driver installed (I tested it).

The ban is for refusing a test, actually he took screenshots but after he realized why I want those he said he will not send us screenshots and left the game.

my written out of hate thing was aim at nurple. for being so fast to post without seeing those logs . if you troll tmx you will see there is no love between me and mikey . and mikey knows I dont trust him or any HOH member as a players. I ask for ..forcett mikey.. every day in game at rencorner and I think the mods there should forcett anyone who gets around 184/10 kd with snipers.

so is there a date to those logs ?

And that proves I 'Hack'? LOL

I told him to ban me, I was constantly being harassed by every mod in there with having the same conversation.

Just because youre mad your mod app got denied doesnt mean you have to be jealous of everyone else who applies.

Saying that, Any admins can feel free to close this app, too much sad pathetic drama already. I got away from that at TmX I dont want it here aswell, thanks.

I've been accused of cheating around 800 times or so I think, a few months ago it was at a rate of 3 times per day.

The whole "they're forced to run 4.0" thing is blatantly false, but okay. For example Mikey doesn't run 4.0. And the whole suspected of cheating thing only works when the mods aren't retards, which if you have Good-One-Dildo and Shaitan on your mod list...plus the owner of the server accusing people of crashing/hacking their server with zero proof doesn't add up at all.

raven wrote on Tue, 18 September 2012 15:38More respectable than 9/10ths of the people in this thread

oh you mean respected with in jelly only ? as for the rest of us respecting you . welll hmmm no comment

you mods dont get it .do you ?

you are treated as a buddy whilst a mod or admin

you think you have respect as a mod or admin

you think the people in game or other mod's respect you

I have seen this over and over once you take away that bit of power you have over guys in the server you are nothing all respect is gone and people soon say what they really thought or think of you.

you will see take away your position and your nothing and people can really say what they always wanted to say to you. without fear your gonna ban them ...

it has always given me hours of fun to see the fear. some guys have about being banned in a game server.

I really couldn't give a shit who "respects" me on a video game lmao

and guess what.. when I resigned not long ago (Early June) people were quite free to speak their mind (and they always are, as I don't ban people for personal issues) as I no longer had any power over them and guess what? Nothing but good words and people asking for me to come back. More than I can say about you...

All iran did was speak his mind against the people in RenCorner and look where it got him? A ban!

Raven's respected, not because he had an 'Administrator' tag.

But because of his traits of being a typically nice, helpful Canadian guy that makes the Jelly, and wider Renegade community, fun!

Rencorner is retarded, too many modifications makes it look tacky

Half the announcements don't even read as proper English or make logical sense(Player on Nod would like to swap with a player on Nod, derp)

!buy is stupid(Can buy an SBH then !buy ramjet, DERP), can buy shit in enemy buildings

Engineers, techs and hotties spawn with shotguns(stupid, as they are meant to be sort of defenseless)

Our mod is in it's infancy and slowly being built up and altered going by what the community wants. Pretty soon you won't be able to buy anything outside of your base using commands, and they'll be ultra expensive - same goes for the weapons.

Fact is, our community has been around for about 2 months now and we've been doing great. People have been trying to come in and "help" (we don't need it, you do) and for the most part, people like our server. If you don't - great. Guess what? I don't give a fuck lol, I don't even like the ability to buy tanks - but if that is what my community wants and keeps them satisfied, why the hell am I going to spit at the majority of my community's faces and do otherwise? That would be bad leadership you retards.

Obviously i'm doing something right, if you don't agree with it - continue playing where you have and fuck off.

You must have done some bad shit to get banned because Jelly puts up with a lot of people for far too long... DJ-EYE-K was allowed for way too long to post bullshit on the forum of a server he doesn't even play on (shows how fulfilling his life is LMAO) and we let it go on for WEEKS... a few days ago, a random full mod (that did not know DJ-EYE-GAY) posted a poll on whether we should put him on mod approval, ban him entirely from the forums, or do nothing - then all of the staff (myself included) chimed in that he's a fucking retard, we put him on post approval, he made a ridiculous post

the contents of which were:

[illegible]

Imfao

and he got mad, asked an admin to delete his account, and ragequit

the end

anyone that actually read his posts or played with him realized he was a retarded waste of space

the whole "fighting back against the machine" thing is a bit inaccurate; he would just post random insults out of left field towards members that questioned him in the past (Iran, Ethenal, myself)
it was neither relevant to the conversation, nor was it something he could back up
he's not someone that can be disproved because he exists in his own reality, one where anyone that disagrees with him does not matter because they are just "trolling" him

So, is G1D and friends ignoring the fact that Jelly is the most popular server in Ren and has been
for years?

I mean, I feel that Jelly would have died years ago if we were doing so much wrong.

Nah, instead, we've gotten rid of MDK, DJEYEK, G1D, etc.

And nobody is complaining.

yes and the fact nobody is complaining is that they would be banned just like the 3 you stated above .

state the fact you banned us 3 not for cheating or rule breaking but for haveing our own minds and we dare to speak out or answer back.

mikey will never get caught again to many trust the fact he was a mod. and he has lots of buddies who are mods so he is kinda safe to play get a 180-12 k/d sniping with out 4.0 and not even be looked at or tested .

When a player joins any server and asks about a rule, moderators usually quote the rules and answer any questions. (like they're supposed to do) If a moderator replied with "kiss my arse" - they'd be disciplined tbh. I'd make sure of it (at TmX)

She was asking a question and she got shot down. I'm sure she'll have better luck elsewhere.

Perhaps there's another reason why players are now filling up RenCorner, maybe just maybe the lack of moderator control at Jelly actually pisses some players off. Animoski is actually on hand a lot and I've seen myself that he fixes mistakes by his moderators. Maybe administrators at Jelly should be on the players side, instead of the staff.

woandre actually makes some valid points in that topic and no one answers him directly. Crypt is the only moderator at jelly in that thread that attempts to give a reasonable response.

Flamingunz should at least apologize for not handling the situation better, but alas it may be too late and it looks like you've lost a player. In my eyes that obviously proves the situation was handled wrong.

tmx is just as bad if not worse .

it can and do's become the same at all servers . if you have a problem with one mod you have a problem with all mods and staff where also the buddy asskisswanabemod group also join in or back them up .

Moron may refer to: Moron (psychology), disused term for a person with a mental age between 8 and 12, and a common insult for a person considered stupid

and as a player we use terms like so .but are not mods supposed to sett standards for others to follow.

and you could have maybe show them you are a better mod . by replying posting the logs and takeing the action you thought fit for threatening someones life ingame .

instead you deleted the topic . brushed it under the carpet and then went on to threaten to ban me if I post again with such things .

I am sorry but threats do not worry me at all and your actions in this case are makeing you no better than any other server admin . the thread didnt make rc look bad the way you handle it did .

and no doubt eye-k got no warnings or threats or punishment for his actions that atleast 20+ players all watched and was also shocked .

so what action have you taken on this matter...?

reopen the topic allow other players to have a say and post the logs show the true face of dj-unstable-k .

let me guess you are about to give me the great old answer.

Nothing's been "swept under the rug". It was deleted because of that faggot iRaN. We also have young kids that read those forums.

I've asked you guys to not bring that shit into the forum, game, or IRC. Yet, you continue to do so.

In the process you just give iRaN(and these cocksuckers) more troll points.

You guys either get along over there, or you wont be welcome anymore.

You can rage about it if it happens, Facebook me to death, but you'll never be as good as Wilo was.

...what?

Firstly, I don't know who you're referring to because there's several admins at Jelly. Second, why on planet Earth would I be upset because one of our staff played on RenCorner? I was actually thinking about playing there a couple of days ago just to see what it's like (because it's modified, but modified servers usually annoy me), but I changed my mind because I had some shit to do.

You really are a strange individual shaitan.

P.S. I really want to know what DJ did

P.P.S. HAHAAHAHAHAHAHAHAHA I HAD NO IDEA SHAITAN IS "HEAD ADMINISTRATOR" ON RENCORNER LMAO

And nobody is complaining.
Sorrow62's topic on Jello forums, enough said.
shaitan stalks the Jelly forums, looking for any fault he can find
i hope it makes him feel better about himself in some way

i waited to see the logs from that before i said anything either way

in that case, a mod reacted a bit poorly to a player's comment
the mod was impatient and felt a player was lecturing them about the rules, and gave a smart-assed reply
the player later made a topic about it, basically asking him to apologize
i apologized to the player on my own, but the mod in question didn't, since they didn't feel the need to
had it been me, i would have, but to each his own

unbiased people weighed in, and the general consensus was that the mod hadn't been out of line or abusive or anything along those lines
he should realize it makes him sound a bit rude, however

no community is perfect, but i feel that Jelly is closer to perfect with the absence of people like DJ and MDK

TEAM MDK wrote on Sat, 22 September 2012 06:18yes and the fact nobody is complaining is that they would be banned just like the 3 you stated above .

state the fact you banned us 3 not for cheating or rule breaking but for haveing our own minds and we dare to speak out or answer back.

we had opinions and we was not afraid to speak them out aloud no one will ask why did you ban these guys or say we thought it was wrong to do so . as they know 100% they will suffer the same fate.

jelly is like the taliban live by our rules or sufer or laws and pay the price if you dare go against us ..

jellys dictatorship is comeing to a end

there's a lot of "wrong" in this post
for one thing, you weren't banned for speaking your mind
you were banned for a variety of reasons, all of which have been covered multiple times in the past
DJ was not banned; his posts were put on mod approval at the request of numerous players and moderators
part of running a community is doing things for the common good - removing the weeds and parasites like DJ is for everyone's best interests (except maybe his, but it's a sacrifice we were willing to make)
G1D was banned for numerous reasons, one being he's helped to kill this game

Jelly doesn't ban everyone that doesn't agree with it; people disagree with things on a regular basis
you just feel that, because you were banned, that Jelly has to be evil and wrong

the problem here is not with us - it's with you, being unable to accept that you're a shit piece that we don't want to deal with

i mean that in the nicest way possible

Croatoan wrote on Sat, 22 September 2012 16:41 When a player joins any server and asks about a rule, moderators usually quote the rules and answer any questions. (like they're supposed to do) If a moderator replied with "kiss my arse" - they'd be disciplined tbh. I'd make sure of it (at TmX)

She was asking a question and she got shot down. I'm sure she'll have better luck elsewhere. it's easy to see it wasn't a question; the player actually asserted they knew the truth and that the moderators were out of line or breaking the rules
the moderator took it as an insult and gave a smart-assed reply

i for one wouldn't have reacted in that way, but not everyone is the same

Croatoan wrote on Sat, 22 September 2012 16:41 Perhaps there's another reason why players are now filling up RenCorner, maybe just maybe the lack of moderator control at Jelly actually pisses some players off. Animoski is actually on hand a lot and I've seen myself that he fixes mistakes by his moderators. Maybe administrators at Jelly should be on the players side, instead of the staff.

woandre actually makes some valid points in that topic and no one answers him directly. Crypt is the only moderator at jelly in that thread that attempts to give a reasonable response.

Flamingunz should at least apologize for not handling the situation better, but alas it may be too late and it looks like you've lost a player. In my eyes that obviously proves the situation was handled wrong.

i felt it could have been handled better

i'm not sure why you felt i, being one of the admins, sided with the staff over the player in that case

there's two sides to every story, and i wanted to see the logs as they actually happened

i would have thought more of Flamin had he apologized, but he didn't feel he should

unless there's other instances of when players felt mistreated by moderators, i don't think it's fair to say Jelly lacks moderator control

there was a case in the past where Jelly lost a player, but it was because the player was furious that the other players would not bend to her will

she was utterly insane, and completely annoying

i lost no sleep in that exchange

It would be greatly appreciated if people stop bringing up RenCorner up in this forum for the sole purpose of laughing at it. We're not trying to compete with any community directly, we're just trying to excel at providing a server that people who play here actually enjoy.

Like i've said before, if you don't like it - cool, go play somewhere else. If you enjoy it and aren't a douchebag, you're welcome to play. I don't care if you were a cheater, made cheats, or if you're a pedophile. I give everyone a chance. I've told those who do shady shit to leave it at the door. MDK has actually been cool with that. DJ was the one who lost control there.

That topic is hidden. If you wanna see what was in it, let me know i'll be glad to give you logs. I don't give a shit. It was hidden so that it would help circumvent the amount of trolling we've been getting from these 2, and we've told them to stop. Having some of this shit has actually prompted us to fix a few forum permissions (like replying in mod apps to prevent spam/flaming)

We're doing quite fine on donations.

Edit: And yes, shai offered to front us the money so we weren't suspended for nonpayment however I thanked him and declined his offer as others came forward with more ties to the community to help out.

tmx is just as bad if not worse .

I challenge you to prove me otherwise, since the re-shuffle at TmX, things have been running quite smoothly with zero problems.

Every server obviously has issues at one point or another, but its how you analyze those issues and consider whether or not certain situations could've been handled better, basically learning from one's mistakes.

I'll be honest, pretty much 3/4 of the moderator team wanted you banned, because of your attitude on the forums and constant rule-breaking ingame. Although you was banned for a week at one point, you seemed to stop breaking the rules and everyone was happy so the matter was dropped.

You did however continue to troll on the forums and in certain threads which is completely unacceptable and is against our forum rules. You was warned often enough to stop and you didn't, we voted internally and the majority voted for you to be banned from the forums.

Very few users have actually been banned from TmX forums as we believe that players have the right to complain if they have a issue and it wont change in the near future. Every complaint is taken very seriously and always investigated internally - I've been debating whether or not to share the outcomes of these investigations to the public but I'm undecided as I believe certain things should remain internal so that the integrity of the staff as a whole is not compromised. On the other hand maybe its best to share the outcome of the investigations to prove that action is taken.

liquidv2 wrote on Sat, 22 September 2012 22:18

i felt it could have been handled better

i'm not sure why you felt i, being one of the admins, sided with the staff over the player in that case

there's two sides to every story, and i wanted to see the logs as they actually happened

Let me make a quick comparison between 2 situations. A player at TmX dictates to a moderator that he isn't hugging and the moderator is wrong and is a idiot for saying that the player was hugging, if the moderator is absolutely certain that the player was indeed hugging then the correct response will be to quote the rules and use our !ex command (!exhug) in this case to explain to the player. If they did otherwise (insult back) then they'd be disciplined as more is expected of them.

The player that complained on your forums may have dictated to a member of your staff, but there was still a question that deserved a decent answer - saying "kiss my arse" is kinda rude. To be fair the player called a member of your staff a moron - but FlaminGnz knows the rules and knows how to handle situations, so he should choose not to insult back and instead quote the rule(s), or explain so that the player isn't confused.

As you said in the thread, you was expecting the moderator that made these "smart arse comments" to post the logs, unfortunately he didn't do so. For me that raises a red flag and i'm left wondering why.

I actually get your hierarchy mixed up to be quite honest. Instead of admins I actually meant "Senior Advisers". There reactions in that thread could've been better. As I stated earlier, Crypt's response was pretty much the only mature post that addressed the player's concerns and explained things and he isn't a admin or a senior adviser, he's a full mod.

Also, having temp mods openly troll the player unopposed, isn't really helping anyone and only creates more frustration.

Obviously Jelly is nothing to do with me and whatever way you want to run it you will do so. I'm just giving my honest opinion on the situation and if anyone is offended, I'm sorry as it is not my intent to be offensive. I'm just trying to raise a few points is all.

Edit: In regards to the other thread whereas Flamingunz tries to explain. I do respect your comment Liquid, it was justified and he does indeed need to hold himself to a higher standard. But (yeah there's always a but) Some staff in that thread express there own personal views and obviously not everyone will agree with what they are saying, plus further trolling which obviously looks good.

crotan do i know you by another name? Either way, hop off my dick, its taken.

rachel was a whiny prick, he didnt ask about a rule. He directly called me a moron and told me

what I did was against the rules. There be a huge difference. So before you make a comment like that, go read the logs.

in the end, i was no where near as angry as him. Ive been called far worse and said much worse. 'kiss my ass', i know im Australian and all, but does that mean something else in other parts of the world? I wouldn't even say its insulting if someone said that to me here, so I don't really know why the 4ft pole up her ass went deeper when I said that.

If she had a shred of decency then I would be happier to apologise for my comment, but I acted civilly ingame and on forums, so you can kindly, kiss my ass.

and ty for the backup liquid, not, 1v1 under.mix?

suggesting i should apologise for saying 'kiss my ass' is quite frankly, fucking ridiculous. I along with many others cant beleive this is even an issue on jelly yet alone covering multiple forums. Not sure whether to be impressed at the renecommunity or ashamed???

To be such a forum lurker you suck some mad dick. If your serious? I said multiple times i was
away without access to my laptop for a couple of days, after which I was going to make a post
detailing as to why and apologised for having to run off.

After returning and seeing the shitfest topic locked (which i feel she deserved) I opened a new

days (341 rene days) and why I wasnt going to apologise to that twat... haha i like writing twat,
thanks uk peeps.

Turns out andy, who was one of the mods called a moron posted the relevant logs anyway, so i

didnt re-post as they summed it up.

Forum lurker? I never actually read Jelly forums, but I find that people tend to bring up Jelly a lot (like here for instance) then I take a little look and give my 2 cents. It took me longer than expected to get around to responding to liquid's points.

I didn't see your comment stating that you had went away and from your responses on here and on Jelly, I'd say there's definitely some personal grudges against each other. Perhaps you should've just quoted the rules and left it at that. Saying "kiss my arse" isn't such a big deal in the gaming world, but obviously it did offend her/him so surely you'd apologize as I'm sure by the logs shown you did not intend to be offensive.

Look at you. You're intentionally posting inflammatory shit to DJ, and you expect me to shut up about it? He isn't doing that to you, he's keeping up his end of the bargain.

I was going to delete that post, but I knew you'd scream RAPE. So, I put that into my status message instead. Heh...you still screamed RAPE.

If you want something done about his "death threats", then call the police. I have already told you that twice.

You are more than welcome to rejoin Jelly's ranks, I'm sure liquitard will love you. I'm also pretty sure I told Animo(weeks ago) how you'd be acting, how you'd end up being banned, posting a shitload of blah here, and migrating to another community. How about you skip the steps and pass 'GO' already?

You're the one that wont stop, when Nurple and DJ have.

and tell me shai why should I shut the f*** up.?

do you really think in any world you could make or force me to shut up ? your a admin and you guys think you can post sly little comments or replys and no one will ever dare answer back.

do you think your little hitler act and defending ppl like eike and letting him get away with rage and his constant inv hugging are helping rencorner in any way.? do you not see your player numbers fall as you try to inforce your will on others .

not many have any respect for you as a mod or admin not to mention as a person and I have none for you du to your.. spoof mdk as a cheater to help out wilo days.

and I have always taken the time to go play mpf and other servers so that is nothing new and I think I will last longer there than rencorner will last with you in charge tbh .

if ani can not see it we can you are driveing players away trying to tell us what we can and cannot do out side of your server and forums ..

lol dude you try to warn me not to post here anymore as if this forum or what I post has anything to do with you .

I get it you spend all day being told what to do so you get home and feel like a boss and try to tell others what to do..guess what your no boss and it seems you never will be.

more to the point why would I listen to anything you say. as you was the one who faked me cheating to save wilos ass

If im currently asking this question the terms of how you put it into a sentence where actually correct. Both ways are possible, so the result in how the question needs to be asked is correct one way or another. Your English is perfectly legible considering English isn't your first language, I'd like to see some of the people joking about your English skills try and type/talk fluent German. On the other hand, MDK can barely speak/type English so, maybe anythings possible.

Funny story going around about liquid. I heard he lost his job and his girl had to get a second one at Starbux to pay his bills. I don't know if that's true or not, the grapevine is sometimes wrong.

In this case your grapevine has rotted out. Perhaps you should quit gardening.

or ask liquitard for some fresh manure to fertalize your vine's ..he has lot's to spare

There is no more a term called a third world country. It is an out dated word used during the cold war era. The terms used now is developed, developing and least developed countries. Iran falls under developing country.

I'm not backing liquid up, tbh I don't even know what conflict you have with him, nor do I care, all I know is, your a pretty "special" bunch of people here.

Lemme tell you this for the 10th time MDK, maybe them meds made you a little drowsy the other 9 times Iv stated this, and since your clearly not taking them now maybe it will finally sink in, Im from London, or do you not realise that it isn't in Wales? Since your originally from Yorkshire all your life, you probably have much more experience with sheep than me.

G1DillyDo id be worried if you think a baguette is a dildo, maybe that's some sort of fetish of yours, where you use food as sexual instruments, maybe you should also be on meds, hell get enough people and maybe you can all have a weekly session where you go over each others issues.

Also MDK stop copy-pasting things from the internet that you found, it's pretty obvious since it has some grammar in it compared to the made up language you try to use, just makes you look more retarded(Wait at this point, is that even possible?).

P.S What do you mean by "Jelly retards", for a start I play n00bstories the most when its active(and I barely play ren at all), maybe people from Jelly seem retarded to you because you are super retarded, and don't understand normal behaviors.

yes they did ask me to stop a lot of times and I requested a ban .I went in game with the intention of getting baned ...

but really do,s kinda show they pay attention to some players and let others do as they please .

it's not the community that is Embarrassing as a whole it's the way shitard runs things and allows his buddies like muckyteeth to do as they please .

shitard prances around shouting out orders and expects us to listen to him. why would anyone have any respect for such a fcktard . he gets told what to do all day at work wipeing bugs of ppls windcreens .so that when he gets home he feels in charge of his -E-world .

althou I can see your overall point about (embarrassing community)

I have show this better than most a place that allows all kinds of rulebreaking just to keep player

numbers up .

also a place where one person gets banned for lite trolling and B2B gunner shooting wilst at the same time other people can rage in game at lots of players and even make threats to go to home town and slit the players throat and get no warning at all ..

I do not think he is targeting you ani like lots of us shitard is the target and the joke .

kinda like if you made -dj-rage-k a admin we would also target him.
the fact me and others link to your forums is that is where sitard hides ..

I would look at it this way it is all great advertising and even brings in new forum clicks or members ..

even my first topic at the start maybe got some players over there to just take a look and once they come in to look they may even like what they see and stay ..

like owning a store or bar it's all about getting them in the door ..so to speak

you seem like quite a dictator (e.g. deleting threads when it puts your community in a bad light) and really dishonest fellow (e.g. lying about banning me from your irc server personally by saying you don't care about me) who doesn't want to take blame for anything (e.g. lying about me attacking your server with...radio commands) lol

and now you're really quite mad, it's not really shocking but it is pretty hilarious, no wonder you have shaitan and g1d on your mod team, their personalities really mirror your own

iRANian wrote on Fri, 12 October 2012 13:02well you seemed to get quite mad banning me from your irc server, which you did and insulting me

you seem like quite a dictator (e.g. deleting threads when it puts your community in a bad light) and really dishonest fellow (e.g. lying about banning me from your irc server personally by saying you don't care about me) who doesn't want to take blame for anything (e.g. lying about me attacking your server with...radio commands) lol

and now you're really quite mad, it's not really shocking but it is pretty hilarious, no wonder you have shaitan and g1d on your mod team, their personalities really mirror your own

I thought we went over this. I don't like you. I even dislike you more than MDK. I banned you because of that fact alone - and don't make it seem like I didn't try talking to you to make mends.

Deleting threads? Lmao sure bud, check your facts dumbfuck. I haven't deleted a single thread (delete, or hide, or move, I haven't done any of that not once on my forum) or restricted access (besides guests posting).

Dishonesty? About banning you from IRC just cause I said I don't care about you - what kind of fucked up logic is that?

Why would I blame anyone but yourself for crashing my server if you decide to make and release a hack, join my server and spam the fuck out of something that is normally spam protected and my server goes down (admittedly irrelevantly) right after you stop doing it?

But, ya know. I'm the one that's mad... Yet you keep attacking me for petty things? lol people are so fucked up these days. Since you seem to give a fuck, go file a ban report, i'm sure we'll handle it exceptionally well and will cater to your needs asap

MDK, I don't get even how shaitan is the center of this (again) - he wasn't even around... lol

shiton has always been at the center of this along with his group
all back to the days he made a the fake MDK cheating fraps to help wilo and get me banned at
lots of servers. along with spreading the MDK is crashing jelly and storm the list go,s on .

and then the dj-eye rage the other week in game where not one bit of action was taken . and the
topic the logs and the thread was all deleted and burried ..

he-you-ur staff all allowed this to happen with in your server and even the day after I got warnings
in game for even pistol shooting a char on the same team aka-dj-eye.

then the final nail all be it was me so none realy care. is banning a player for b2b with a gunner
and refuseing to stop.

I know we chatted on facebook and I also know not one word you said was true just like with wilo
you try to play of the nice guy persona but then back stab behind closed doors..

at least some of these guys have the balls to say how they realy feel about some one. guys like
you and some others are nice to ppls faces then sculk off and say fck I hate him but dont have the
balls to say it to his face

In the end, I know I wasn't being dishonest and that is all that matters to me. You can go fuck yourself (or fuck off) if you doubt me.

You're just ignorant and blind, and there is nothing I can do to fix that. You sit in Jelly all day and

yet claim to know every little single detail of how RenCorner is run.

Whats pathetic is this community. You guys will constantly attack someone until they decide to leave, and when that person/entity does leave you move onto someone else. That is what will kill Renegade.

I'm supposed to look the other way when he does shit? Interestingly enough MDK was doing this very thing to another community member(by the way MDK, that was frapsed as well). When I got on his ass for doing so, he howled like a banshee: "mod raaaaaappppeeee!" Damned if I do, damned if I don't.

and yes maybe you should as I was clearly a paint from the start of joinhing the server ? oh thats right all this didnt actualy start untill you buddies joined and you failed to take any action against anything they said or did .

you allow people to threaten to kill other players with in the server and do nothing but hide the logs and thread ... so we are expected to think you did or said anything to defend this kid from bullies as a mod in your server .

you know there was no trouble from me just like in any other server untill muckyteeth and his clan join and are allowed to say or do as they please with cover from you and mods like you .

put me on ignor I can still see what you type and reply to it .

I have a feeling one day owners of the servers that you prance around in like some dicktator will one day wise up and see they dont need you and kick ur window cleaning ass out... where will you go then move on to another server just like eike. you will find once you have no power over the mods or players you will be more of a outcast than I am .

Tyrannical senior moderator*

I did that, because quite frankly, I felt like it. You're just trying to fan the flames in a ridiculous topic of a forum that you ABSOLUTELY NEVER POST IN FOR ANY OTHER REASON THAN TO CAUSE SHIT. I would feel differently if I was guilty of doing the same at RenCorner, but I don't even so much as have an account at RenCorner (or I may, I don't remember, but I haven't posted anything with it).

I know shaitan, you're a rational logical human being of superior intelligence to myself that would never fall victim to any kind of human irrationality or your own emotions - but in reality, you're a psychopath with an internet connection and a keyboard.

And by the way you illiterate peons - the word "tyrant" may have a negative connotation, but all the word tyrant means is a ruler of a specific group that seized power ILLEGALLY. Which, you know, makes pretty much any single usage of that word in the history of Renegade inaccurate.

P.S. If nothing else can be gained from this topic, it can be learned that if you do not read this forum, nothing that occurs on it even exists - there are like ten bored people that read and post on this forum, and it doesn't affect a single regular Renegade player. And you CERTAINLY don't have to change your forum permissions because of things posted here, lol.

I'm pretty sure your bullshit up there was trying to implicate me. Just like the rest of your bullshit: rooted in psychobabble.

You started a fuckfest on the forums there, and somehow...ended up blaming me for your woes. By the way, I wanted to get rid of the disease(that is MDK) months ago. You had so many chances, and fucked every single one of them up. The funny part of it all: I didn't do any of the shit you've stated here, or there.

You blame the hell out of me for every little thing that's ever happened to you in your sad, pathetic, miserable excuse for a life. Just cut your wrists worm, and do the world a favor. No seriously, cut your wrists again MDK. This time do it the right way.

Like raven said that's clearly outside the boundaries .. there are some people that really make you angry but there's no way you could seriously want them to end it all over something on a gaming forum. Keep it classier guys.

yeah realy extreme .. but how stupid can you get writeing such shit about the place where you work on a public site for anyone to see . and he clear;y dislikes his dead end job--super lube-- so would be no real loss for him .

kinda sux hey ani-shai when you have no power over anything out side of your locked down

forums or server. the only real place you have any importance or power.

and no I was not banned for shit like this I was 7 day banned for posting pic,s of mucky teeth.

no doubt you and all your little buddies over at rencorner have been clicking like crazy on the report buttons in the hope that a ban from the forums will finaly get rid of me ? .

just like Tiny banning me from Ultra. servers that all have the same mod.s tmx-Ultra-rencorner... and yet still here I am and even would become more active if banned from this forum also..

this is totaly the same as every other timeargue with dj-muckyteeh-k .. mods take his side .leads to argue with mods . leads to ban server and forum...leads to lots of buddie bans in other servers . same old story and in the end I remain and all those servers are now dead or gone ?????? then the same old mods move on to a new server and the story happens again.

Why are you fucking with people's lives? Weren't you banned for shit like this before?

You're pushing the wrong buttons all in hopes of getting attention dude.

I basically said weeks ago he should be banned. He's a plague and needs to be handled like this. He hasnt nor will ever learn from previous things, thats why he has been banned all the time from diff. communities. I hope Crimson considers this seriously and removes him from here as hes just making everything worse.

at one point I thought you was diff billie...when I first started at area .. you know no problem in game or forums not one ? then one person started to temhamper and taunt me in game . you asked me to pass anything that happen on to you first and not to post in forums . you know that everything started from that and just carried on till we got to the same stage we are at now .

History...

started at storm with that one person I posted in forums . where he was admin and log,s was hidden and edited . all the mod team and the owner[wilo] all saw only the admins side of the story . he had more buddies in game and on staff ..thet lead to me and the owner [wilo] takeing the argument out of forums and he also got most other servers to ban me or some just did so as they seen me as the trouble maker

all those same people are still in game and or admins and mods .

and the story repeates itself

storm

area

rencorner

matrix

mp

what do all these servers have in common all the same mods and all arguments start with eike where those same mods take his side.

tell me any of you what problems have you had from me in game or forums that eike was not at the root of ?

And yes, when you first came to area54, I was willing to give you a chance, and you proved everyone who warned me against it right.

At rencorner, Animoski was happy to give you a chance, guess what happened? Oh yeah, you blew it

and as your a mod at the same server you would defend him or them ..

and sure I was a prick to shiton he was the head admin he is the boss I was attacked in game and threats on my life was made in game and he refused to post the logs or take any action against the person. instead I got warning about complaining about it.

my history is not new with shiton he was at the time of storm right at the front of all this same kind of shit.

and when they could not ask servers to ban me or had mods there to help them . shiton came up with the fake MDK cheating video and some servers banned me on that alone.

not at 1:19 they type put MDK as the reson. then they shared this fraps all over.

If it was such a public forum, why make fake accounts to try and pull this off? The only reason that one got accepted was because I was going out the door and was accepting RnD's friend request. I figured it was some other Rencorner guy befriending me as well.

shaitan is a prick to a large amount of people, so getting shit back isn't uncalled for in the slightest however, MDK is flawed in his thinking
the server that has thrived the most for the past few years has had him banned for a very long time, and it still seems to be around

the fact around the time was prior to all the crap going on with wilo and storm you really had no idea who I was as a player .

I never came up on the jellys radar and none of the mods or admins ever had a problem with me in game or any forums. fact was I maybe play once or twice a month at jelly. and the only time most of you guys came to know of the name MDK was when all the shit kicked off with storm... so to say I was a problem prior to all this is not true. to search jellys forums alone you see nothing of or about me untill after the storm stuff .

okay this topic is getting way better

at least now we know for sure shaitan is angry, and it delights me to no end when he replies to my posts even though he made a point of noting earlier that I was ignored

and yes, MDK is definitely taking this to the extreme - however, I am not stupid enough to post public evidence of me saying negative things about my employer so I am in no such danger of such an occurence - no skin off my back

no shaitan, you are not a psycopath because you are mad at MDK for doing this - it is for other reasons entirely (though related to this topic)

at one point I thought you was diff billie...when I first started at area .. you know no problem in game or forums not one ? then one person started to temhamper and taunt me in game . you asked me to pass anything that happen on to you first and not to post in forums . you know that everything started from that and just carried on till we got to the same stage we are at now .

History...

started at storm with that one person I posted in forums . where he was admin and log,s was hidden and edited . all the mod team and the owner[wilo] all saw only the admins side of the story . he had more buddies in game and on staff ..thet lead to me and the owner [wilo] takeing the argument out of forums and he also got most other servers to ban me or some just did so as they seen me as the trouble maker

all those same people are still in game and or admins and mods .

and the story repeates itself

storm
area
rencorner
matrix
mp

what do all these servers have in common all the same mods and all arguments start with eike where those same mods take his side.

tell me any of you what problems have you had from me in game or forums that eike was not at the root of ?

You wasn't actually banned from TmX, but in light of your recent actions in this thread, I don't want you round our playerbase, its sad to think that I blocked a complete ban on you because I thought you deserved a second chance, as I'm no longer blocking this action its went ahead and I can truly say I wont lose any sleep over it.

In regards to you evading, good luck. We've been around long enough, we have many tools at our disposal to keep players that we don't want around out.

I'm not taking anyone's side, but its the likes of you, why I advise people not to share personal information online.

Why do I continually put my opinions out here? To counter yours, obviously, as I am doing at the moment. Of course nothing I said matters, neither does any of the drivel you spout; after all, we're sending 1s and 0s over a cable as we sit on a giant rock that is hurling through the cosmos - nothing really matters.

Non-existent player base? As of right now, they have 1 more player than us. We're especially active in the weekends, occasionally having more than Jelly. We've been having weekly commwar runs with exceptional turnouts (28 players came last time)

The only reason why MPF's formula works is because they are THE ONLY server with fan maps, and after a decade, there's a great number of people who are just tired of stock maps. When they tried to put up a marathon server, they failed.

You [still] seem to be really mad at us that we banned you lol

No, silly; I still actually look at these forums consistently (even though lately activity is nonexistent), and the fact you haven't posted here in two months is easily gleaned from your forum profile.

So, you look at my profile? eFag.

I remember you Anthrax, you're fucking famous too. You were bawling on Teamspeak because your Facebook was stolen and deleted.
The best part was that sliver of hope you were given("relax, your emails are fine"), but that was a lie.

Just yesterday you were down on your knees. Now you're back to the stupid ass that you were. Relax, your emails are fine, and I really don't care what's in them nor do I bother reading them.

I told you numerous times to not cross me. You crossed me again, and now you face the consequences.

And for someone who says they're Christian. You're an embarrassment. I don't follow religion, and you act on the internet.

Have fun with your legal stuff. Facebook is serious business.

when this thing first happened shaitan acted like he was on my side trying his best to help me get justice for this act and now he's trying to use it as a weapon against me .. hilarious .. no sociopaths please LOL .. it's funny because i was one of the only people defending you in the thread where MDK was talking shit about you on walmart's wall and this is how you treat me.

btw maybe you'd care about losing your facebook if you had any friends that weren't from renegade you fucking moron.

stealing my email and facebook is illegal, i'd never fuck with someone's real life no matter how gay they were on renegade .. that's just low .. and the fact xpert went ahead and deleted like 50 of my

friends and changed my status to say inappropriate things is quite hilarious that someone could be that enraged ... and i'm pretty sure most people with a social life would be upset ..

i mean i know these people embarass you daily because you lack intelligence but way to make yourself look like a huge fucking retard. that couldn't have backfired any worse lmao. ethenal is right you are broken.

Trying to prove? You seem to think shaitan thinks like a logical human being - no, a newcomer joined the fight on which shai had some dirt so he went to his file cabinet and opened his "Renegade" files and retrieved some old print outs of forums, scanned them into his computer, then posted them in here in some effort to make AnThRaX... It's funny cause if people from MPF were actually posting up screenshots, i'd post some of my own, comparing our MC servers and other wonderful things we do that grabs a lot of attention. But since it's iran, someone who is completely irrelevant and just some deprived person of attention whose trying to influence some kind of sense of importance in his life, I sit here and laugh as he's the first person i've ever blocked on renforums.

I don't know about you guys but I remember times when we used to play video games to have fun, and dealt with petty shit ourselves on the side. Now we got keyboard warriors up in this bitch.

I just read through this and knowing a lot of you quite well I'm shocked at how personal and sadistic some of these posts are. First of all I'm used to bringing up personal lives to try to get a rise out of them but this has been taken to new extremes and crossed many lines.

Seriously trying to get someone struggling in their workplace fired simply because you can. Who gives a fuck if they posted complaining about their job. Many people do that. It doesn't mean you just go ahead and exploit them and try to get them terminated.

Second I don't appreciate personal grudges and fights on this forum reflecting negatively on RenCorner. We have been working hard to make a renegade community people enjoy and have fun at. We have been quite successful at getting a decent player base in game and on forums. We have also recently started doing community wars that have always been 8 v 8s or greater and it is starting to bring the community together more.

I ask that what ever person grudges you hold against any of our moderators or administrators you do not call RenCorner down because of it. We are all part of some of the few communities left. We should be working together not trying to have some competition over who can get more players. The most important thing is getting the new players to return.

I did not make a post to start a flame war with any of you, but there have been many things said that are completely immature and have no purpose except to hurt another person.

Thanks,

-Volcom

here's the thing - RenCorner mods have been making bullshit claims and statements along with random attacks on non-RenCorner players and remaining community members / communities if you go back, you'll see that much of what was said in this topic and others was in direct response to those people

your very last paragraph sums up the kind of things mods representing RenCorner said and did, and ultimately got responded to for

Ani just said he doesn't care what his mods do here, which i think is the wrong approach to take to the issue - what you're seeing is the result of their actions turning back against RenCorner because they're representing it

go back and read for yourself - it's all there

i don't have any ill will toward RenCorner
some of its moderators are completely retarded, however
whether you like it or not, it actively tarnishes that community's image

the reason Iran keeps posting screenshots is because a RenCorner moderator was trying to assert that RenCorner was better and got more players than another server by posting a screenshot repeatedly; he was trying to get the guy to admit he was wrong, which will never happen

if you care about your community, you should do a better job representing it

Well I am representing it now. I do not try to claim our server gets more players than jelly and that is not our goal. Our objective is to have a successful server with active players. Advantage textures and models seen used by DJ eye K (Just in that video!)

Some weird tank shells that make them easy to see
Explosions that also make them easy to see
RAINBOW STEALTH texture (It's not an advantage! It just makes them easier to see!)
No scope texture!
Weird tank textures that make them glow neon bright.
Glowing C4 (held by an engineer he sniped) (It looks like a spongebob texture, so it might just be a bad choice of textures)

Debatable:
Building Bars
Mine Limit

Soo, clueless now DJ?

Weird tank shells? dafuq...
explosions are called Paintball shots - DL from gamemaps
Stealth Texture - DL from gamemaps
Clearscope - DL from gamemaps
tank texture?? - There are no tank textures lmao
glowing c4 - aint no glowing c4, just switched to green
Spongebob Skin - DL from gamemaps

Discuss bout Building Bars? hahaha... blame the developers not the user
and wtf Mine limit?? I swear to god, you are either totally trolling or just way out of date....
awesome xD

BB and Mine Limit: Depends on the server really. Spongebob C4 is Advantage, but is also a bad taste

Just because you can "download it from game-maps" doesn't mean it is an advantage texture. Actually, I want you to link me each of those textures.

The artillery, APC, and Humm-vee, did you not see those?

I agree. The colors of that C4 skin completely makes it stand out amongst the colors of the game has at stock and gets emphasized with other map skins.

I can see the argument for building bars and minelimit, especially if they have counters for the other team.

I personally like having a simple layout on my HUD, having it cluttered with a bunch of crap, regardless if it's helpful or not is counterproductive.

no offense but if your life is so boring that playing video games and "not trying" unless you're playing competitive is really all you have to do i'd reevaluate my decisions.

"i have nothing to do, let me not try in this video game for fun"

tbh i hate when people say "i'm not trying" .. can you imagine making a basketball team and in practice the whole time your friends fuck around and kick the balls off the wall and dunk on their own basket and then when you try to be serious they just say "dont worry dude i dont try unless its a game" .. that logic doesn't apply to anything in life lmao
