it's funny how cheating somehow doesn't count as cheating if you're DJ
he spent a long time harshly bashing other cheaters too, from what i can remember
imagine having to deal with someone like him in real life - he can't even be honest about a 12 year
old computer game

Nothing ever changes here now does it? The names of the tards that are being accused of cheating change, but the whole drama about it is still the same as 5 years ago. If not more.

Some may feel that way but I don't think that everyone who is good cheats. However I do know for a fact that you were using a triggerbot when we banned you.
