Hi

Is it possible to set the camera in a mod from the 1st person view to another 3rd person view or so
that there is no more 1 st person view?
I tried to make something in the cameras.ini but nothing changed.
Can someone help?

Look in renhelp there is something in there about changing the registry values so you
automatically start in 3rd person

I have been using this for a few months now and it work fine and dandy! but be carefull when
editing the registry!! you have been warned!

Yeah, it works, but how can i make this only for my modpackage and not for the hole game?

Edit: Does nobody know?
