OMG!!! CAN NOBODY SEE THE NEW STICKY TOPICS I MADE WITH ALL THE TUTORIALS??
Both the "Tank Tutorial" and "Vehicle Boning" tutorials are there.

Sorry I shouted but I went through a lot of trouble to compile this information, and to make a thread for people to submit new ones, and they have thusfar been ignored.

Blazer, I need to make a tank, not bone it.
All I see in there is a boning tutorial.

So you don't see KillaKanz's "Tank Tutorial"? Maybe you need to renew your optical prescription.

"Fatal error: Failed opening required 'includes/sql_layer.php' (include_path='') in /home/cncponet/public_html/mainfile.php on line 48"

Well there goes that theory. I already tried that one, and the guy is on my MSN list and he won't answer

Well darn, it was working last night. Kilakanz announced he was leaving the renegade community to go to Generals, maybe he took his renegade-specific stuff offline too.

Materialises

Hey

Imdgr8one and some other friends brought this to my attention, the tutorial is temporarily down due to server problems and will be back ASAP.

Although I have left Renegade, the things that apparently I never did for the community will remain.

dematerialises
