Are you sure he said retinal? Perhaps he meant reticle, in which case, it simply means he downloaded a new crosshair to use in the game.

LOL retinal.

He got a new eye part. That would help ME aim better if I had a better one!

Retical dont really help you aim better they just change how your aimer thing looks.

There is a bunch over at C&C Ammo

The retina is the back wall of your eye. This is the surface in which the light that goes into your eye collects on and is sent to your brain via optical nerves. Your retina cannot be replaced.

jestershtwhere can i get the click bot

It's behind the door with the big EXIT sign on it, n00b.

jestershtwhere can i get the click bot

Dead I don't believe there is one site that has it anymore...

Good ridance to bad rubbish!

---

I seem to remember a reticle that said it is more accurate in the description maybe that's the one he was referring to?
