i'm wanting to set up a dedicated server on westwood. the dfs program says to goto <http://renegadeserver.westwood.com> and request a serial. as you already know ,that page is gone.  
now i'm not up to date with all the westwood news ( other than it's been merged with ea pacific.)  
how do i request a serial for westwood?  
thanks for your help in advanced.

go to the following site: <http://renegadeserver.westwood.com/RenegadeFdsReg/index.jsp>  
the site you posted (<http://renegadeserver.westwood.com>) is not gone. just it is a redirect site now. when you go there it redirects you to  
<http://renegadeserver.westwood.com/RenegadeFdsReg/index.jsp>  
i got my server just yesterday. it works just fine. whenever your on, check for a server hosted by "gdcserver" that is the host for the renegade FDS for my clan (g.d.c.)  
  
if you want to learn about my clan go here: <http://www.geocities.com/globaldestructionclan/>
