Hmmm, no thanks.

If none of the main C&C sites have info on RA3, then there's no chance in hell you've got some.

Probably just another dumbass kiddie link that forwards to Outwar.

kthxbye.

Doesn't link to outwar... but a huge waste of time for sure... my 12 year old brother could have made a site better than this... and he doesn't know how to make one.

In every topic that someone attacks another, you echo the previous sentiments.

For example, if someone refers to HTML as they have here, you go off on a tangent about HTML and how the guy is a loser. So you're also attacking what they say, mister pot. Don't go calling me black when you're the same damn thing.

You're one of those fucking "Me too!" punks who has nothing of his own to contribute to a fucking discussion. I suggest you change your ways and stand on your own.

Aircraftkiller

In every topic that someone attacks another, you echo the previous sentiments.

Wow, not even close. You can't find one thread that I've just said what someone else has already said. And am I not allowed to have an opinion on a topic if someone else has a similar opinion?

AircraftkillerFor example, if someone refers to HTML as they have here, you go off on a tangent about HTML and how the guy is a loser. So you're also attacking what they say, mister pot. Don't go calling me black when you're the same damn thing.

Nice try, but you're still wrong. How am I attacking what someone else has said about marktan952002's inability to code HTML by saying marktan952002 needs to learn HTML? I was refering to him, not anyone else.

AircraftkillerYou're one of those fucking "Me too!" punks who has nothing of his own to contribute to a fucking discussion. I suggest you change your ways and stand on your own.

HA, no. And you've contributed to this discussion? Please point out any thread that you've contributed something to that wasn't a flame, insult or attack. Suggest I change my ways and stand on my own? What the fuck are you talking about? Just because I've said one word that was already said by someone else? How about I make a suggestion: Why don't you take the rest of the board's suggestions and stop attacking people for no reason at all?

You can rationalize it all you want... It becomes most apparent in what you write in the politics discussion. I haven't even read anything in that paragraph you posted. I already know what you'll say.

"It's you, all you! I'm perfect, I can't do anything wrong."

I've said all I needed to... Others have noticed your "Me too!" attitude. So long as you realize that's what others perceive you as, my work is done.

Geez you two, cut it out. Do you really think we want to see this? If you guys have a problem sort it out through personal messaging. We are just one big community, and if we weren't nobody would be playing Renegade. Just quit fighting all the time and stop being so critical of each other.

first... your sig image is way to big... read this.

second... if you don't want to see it, don't go into this post anymore... if you decide halfway through reading that you don't want to see this... stop reading. it's quite simple.

Thanks for telling me about that. Didn't see it right off. I'll go find another.

As for the fighting, I guess its ok just don't make like 10 posts on it or it kinda gets like "He hit me!" "But he started it". I just fail to see the reason for it. I mean we are all mature (some more than others) but what's the point of constantly fighting?

AircraftkillerYou can rationalize it all you want... It becomes most apparent in what you write in the politics discussion.

Lol... You still can't find any threads in which I just posted exactly what someone else has said, not one.

Aircraftkiller

I haven't even read anything in that paragraph you posted. I already know what you'll say.

"It's you, all you! I'm perfect, I can't do anything wrong."

Wrong again. Why don't you actually read it... I didn't say that it was all you, I didn't say that I was perfect or that I can't do anything wrong. I didn't even come close to saying anything like that.

AircraftkillerI've said all I needed to... Others have noticed your "Me too!" attitude. So long as you realize that's what others percieve you as, my work is done.

You still have not one piece of evidence in any form. You haven't pointed out at least one thread in which I just repeated what someone else says. Why would others perceive (yes it's 'perceive' not 'percieve') me as that when I've never done that?

You have nothing to back this "Me too!" bull shit up. You're attacking me for absolutely no reason.
