It's nothing like Reneagde...It still has lots of bugs though. I honestly can't see them releasing it on the 16th if they want anyone to buy the game. Besides all that...the game is more addictive than heroine...

Peace out,

PlanetSide is the best fucking FPS game I've ever played, more fun so than Renegade.

The continents are massive, the battles can be huge, it just goes on.

If you love FPS games and don't mind a small monthly fee, then you'd be missing out big time if you didn't get this game.
