Some of you may remind Ajabs tutorial how to create a wepon?

I have reformated it, added some notes and pictures to it.
As long as it is not added to the Database of renhelp.info and http://www.laeubi.de/tutorials you can access it via:

http://www.laeubi.de/tutorials/weapon

Hope that help you making weapons for Ren.

The page should be up soon hopefully. MySQL and PHP are a real pain if you don't know the language well. I have made a page too add tutorials, delete them and the edit one is proving to be a pain. I should figure it out soon hopefully though. Then we can add more tutorials easily.
