Like I always say: "Good Idea, bad execution".

I'm glad my name isn't on that list.

Sorry about that.

My name is on it... :/
I think we need to remake it...Seriously...It looks lame...I wasn't impressed with the firsts
screenshots. Now I'm extremely disapointed...

The main structure of the map (geometry) is not too bad but it needs to be re textured and a lot of
objects added. Currently it is a bit boring in the shops, you should have objects in them. Also
pickups would be nice around the maps. It is easy to mod a temp preset and make a spawner to
spawn chosen objects. With more work it could be a good map.

The texture Kinda reminded me of a castle. I think plain white with a blue stipe going horizontal would be fine.

This map was laggy as hell. That needs to be fixed.

The Maps textures are VERY poor and could definatly be redone, there are some map problems where vertex's do not meet.

The map could do with some proper Prop's to give it a more feel, you just didnt spend enough quality time on it.

I'm doing a bunch of computers/TVs/etc. for another mod, I could donate them (For a computer/electronics shop). I also have a few "antique" vases, lamps, tables and chairs that I've done, or am doing for another mod that I could also donate for this (You can make one of the shops an antique shop, and make dozens of vases/lamps/tables/chairs by taking the few I donate and add several variations of skins for each model).
