When you go host a game, set the number of players to 1 and then choose the map. Thats it.

UMMMM Do you mean like bots... If you do check on <http://www.e-r-s.us> that is my clans site and we had about 20 ai maps for download but the site is down and will be up sometime next week then all you have to do is host it put a 1 in the number of player box and start murdering bots.

P.S i am srry if i didnt answer your question...i aint really sure what exactly your asking
