Cheaters have finally found a way to instantly kill buildings with one blow!! Sorry about me having no screen shots but believe me they have finally figured a way to do this! This cheat hasn't been released to the public to my knowledge but I know 1 person has it and I didn't get his name sorry.

Have you seen the hack that lets a minigunner turn into a Giant Flying Mammoth Nuke Obelisk Monster of Doom?

So did you actually ask every cheater you run into the question of their sexuality? I would think that heterosexuals are still the majority, so making the community more gay would most likely be counter-balanced with those who aren't.

Wow... That shows, absolutely nothing!

How exactly do you know that a beacon wasn't planted inside the power plant?

I'm quite frankly surprised this didn't happen earlier...

Just goes to show that cheaters really aren't all that bright after all.
