Ive been playing video games for over 20 years

Since atari and coleco vision

and now i only play one gameRENEGADE

By far one of my favorites of all-time

Im amazed how for games have come and im over-joyed to make my own maps!!

Now it seems that this is a community for help with mod and mapping....Then why do i have to put up with this??

Please do something about it...just because he's the so called best mapper doesnt give him the right to treat others this way!

Steal them, borrow them, whatever you're doing without my permission will land you on my enemy side and I will make sure you end up like Shady and AllGusto.

Want to be a thief? You'll get treated like one.

I agree too. This is still going on, you guys (Moderators) need to put a stop to it.

have to put up with this kind of abuse? Your going to lose your people and have only ack and his buddies here.

One good reason: Your maps will never be run on The Pits if I inform msgtpain that you're a thieving liar, which is what I'm about to go do.

Then I'll make sure the community shuns you globally for crimes against the community, e.g. thievery. Would you like that?

Losing you wouldn't be any real problem considering you don't do anything to begin with.

ack according to what ive seen people end up on your enemy side just for asking about help, i dont know WHY the moderators here tolerate your behavior, yes your good at mapping im sure you are but that doesnt give you the right to talk to people like this

You don't know what you're talking about - please shut up before you embarass yourself more.

Titan only spams this forum with help requests instead of reading tutorials.
He releases crappy maps (Even with the amount of literature we have available to help people like him.) which should not be tolerable by today's standards.
He whines when no one helps him.

Right.

The Pits is the only decent Renegade server out there that has in-game moderation, fan maps, and ladder rankings on its own including its own support and community.
