Anyone have links to save game files that are right at the end of the mission so I can easily watch all the cutscenes? THEY ARE AWSOME

I have a couple of save games, but only a few are at the end of each mission. Just extract the cutscenes with XCC and convert them to AVI with the VQA 2 AVI tool.

XCC mixer sucks. It freezes and no matter what, I can't fix it.

Use VQA to AVI!

gam3rjXCC mixer sucks. It freezes and no matter what, I can't fix it.

Use VQA to AVI!

double-click the XCC mixer exe and then immediatly hold left shift. Keep holding it for a few seconds, you can then relase it and XCC mier should be loaded properly, you may need to click the taskbar icon to get it into focus though.

Why would it?
It was made for C&C games which all used .mix files to store stuff.

You need a mopaq (MPQ) extractor for starcraft, It works with all of blizzards other games too like warcraft and diablo. It is similar to the MIX file in how the games use it but it works a different way.

You will probablt find one that is game specific like fore Diablo 2 ut it should work for anything uing mopaqs built earlier.
